## Pontiac, ILLINOIS

# ILLINOIS DISTRICT REPORT CARD

State and federal laws require public school districts to release report cards to the public each year.

Starting in 2009, charter school information is included in district statistics.

**Low-income** students come from families receiving public aid; live in institutions for neglected or delinquent children; are supported in foster homes with public funds; or are eligible to receive free or reduced-price lunches.

**IEP** students are those students eligible to receive special education services.

**Limited-English-proficient** students are those students eligible for transitional bilingual programs.

**Mobility rate** is based on the number of times students enroll in or leave a school during the school year.

**Chronic truants** are students who are absent from school without valid cause for 18 or more of the last 180 school days.

**Total Enrollment** is based on [Home School](#).

The No Child Left Behind Act requires that information for certain data elements be disaggregated by high- and low-poverty schools. Poverty (low-income) is defined on page 1 of all report cards. High- and low-poverty schools include those in the top and bottom quarters of the poverty distribution of schools in the state. Disaggregated data are reported only if at least one school in your district falls within the high-poverty quarter and at least one school within the low-poverty quarter.

## SCHOOL DISTRICT FINANCES

### TEACHER/ADMINISTRATOR SALARIES (Full-Time Equivalents)

Salaries and counts of staff are summed across a district based on the percentage of time that each individual is employed as a teacher or an administrator and may or may not reflect the actual paid salaries for the district.

\*\* Due to the way Illinois school districts are configured, state averages for equalized assessed valuation per pupil and total school tax rate per \$100 are not provided.  
**Equalized assessed valuation** includes all computed property values upon which a district's local tax rate is calculated.  
**Total school tax rate** is a district's total tax rate as it appears on local property tax bills.  
**Instructional expenditure per pupil** includes the direct costs of teaching pupils or the interaction between teachers and pupils.  
**Operating expenditure per pupil** includes the gross operating cost of a school district excluding summer school, adult education, bond principal retired, and capital expenditures.

## ACADEMIC PERFORMANCE

### 2009 NATIONAL ASSESSMENT OF EDUCATIONAL PROGRESS (NAEP)

NAEP is sponsored by the U.S. Department of Education and administered to students in grade 4, 8, and 12. Only grade 4 and 8 results are required to be reported.

Achievement levels reflect what students should know and be able to do. Based on recommendations from policymakers, educators, and members of the general public, the Governing Board for NAEP sets specific achievement levels for each subject area and grade. To provide a context for interpreting student performance, NAEP results are reported as percentages of students performing below the *Basic* level, at or above the *Basic* and *Proficient* levels, and at the *Advanced* level.

**Basic** denotes partial mastery of prerequisite knowledge and skills that are fundamental for proficient work at a given grade.

**Proficient** represents solid academic performance. Students reaching this level have demonstrated competency over challenging subject matter.

**Advanced** represents superior performance.

The four achievement levels (below basic, basic, proficient, and advanced) are reported as level 1 through level 4, respectively. Please note that only state results are reported.

**OVERALL STUDENT PERFORMANCE**

These charts present the overall percentages of state test scores categorized as meeting or exceeding the Illinois Learning Standards for your district and the state. They represent your district's performance in reading, mathematics, and science.

IAA scores in the Progressing and Attaining performance levels count the same, respectively, as scores on other state assessments that meet or exceed Standards.

**ISAT PERFORMANCE**

These charts provide information on attainment of the Illinois Learning Standards. They show the percents of student scores meeting or exceeding Standards for the grades and subjects tested on ISAT.

**PERFORMANCE ON STATE ASSESSMENTS**

Federal law requires that student achievement results for reading, mathematics, and science for schools providing Title I services be reported to the general public.

The Illinois Standards Achievement Test (ISAT) is administered to students in grades 3 through 8. The Prairie State Achievement Examination (PSAE) is administered to students in grade 11. The Illinois Alternate Assessment (IAA) is administered to students with disabilities whose Individualized Education Programs (IEPs) indicate that participation in the ISAT or PSAE would not be appropriate.

Students with disabilities have an IEP (No Child Left Behind Act). An IEP is a written plan for a child with a disability who is eligible to receive special education services under the Individuals with Disabilities Education Act.

Reading and Mathematics are tested in grades 3 through 8, and 11. Science is tested in grades 4, 7, and 11.

In order to protect students' identities, test data for groups of fewer than ten students are not reported.

### ILLINOIS STANDARDS ACHIEVEMENT TEST (ISAT)

The following tables show the percentages of student scores in each of four performance levels. These levels were established with the help of Illinois educators who teach the grade levels and learning areas tested. Due to rounding, the sum of the percentages in the four performance levels may not always equal 100.

- Level 1 -- Academic Warning - Student work demonstrates limited knowledge and skills in the subject. Because of major gaps in learning, students apply knowledge and skills ineffectively.
- Level 2 -- Below Standards - Student work demonstrates basic knowledge and skills in the subject. However, because of gaps in learning, students apply knowledge and skills in limited ways.
- Level 3 -- Meets Standards - Student work demonstrates proficient knowledge and skills in the subject. Students effectively apply knowledge and skills to solve problems.
- Level 4 -- Exceeds Standards - Student work demonstrates advanced knowledge and skills in the subject. Students creatively apply knowledge and skills to solve problems and evaluate the results.

**Four Conditions Are Required For Making Adequate Yearly Progress (AYP):**

1. At least 95% tested in reading and mathematics for every student group. If the current year participation rate is less than 95%, this condition may be met if the average of the current and preceding year rates is at least 95%, or if the average of the current and two preceding years is at least 95%. Only actual participation rates are printed. If the participation rate printed is less than 95% and yet this school makes AYP, it means that the 95% condition was met by averaging.
2. At least 85% meeting/exceeding standards in reading and mathematics for every group. For any group with less than 85% meeting/exceeding standards, a 95% confidence interval was applied. Subgroups may meet this condition through Safe Harbor provisions.\*\*\*
3. At least 91% attendance rate for non-high schools and at least 82% graduation rate for high schools.

\* Includes only students enrolled as of 05/01/2010.

\*\* Safe Harbor Targets of 85% or above are not printed.

\*\*\*Subgroups with fewer than 45 students are not reported. Safe Harbor only applies to subgroups of 45 or more. In order for Safe Harbor to apply, a subgroup must decrease by 10% the percentage of scores that did not meet standards from the previous year plus meet the other indicators (attendance rate for non-high schools and graduation rate for high schools) for the subgroup. For subgroups that do not meet their Safe Harbor Targets, a 75% confidence interval is applied. Safe Harbor allows schools an alternate method to meet subgroup minimum targets on achievement.

**FEDERAL SCHOOL IMPROVEMENT STATUS**

## PLANNED IMPROVEMENT FOR THE SCHOOL AND DISTRICT

This is the final section of the school report card in which your school and district provide information below on areas of success and areas for planned improvement based on your school's improvement plan.

(For report cards disseminated electronically, this information may be provided in a separate document due to differences in the software used. If you are unable to locate this document, please contact your local school or district office.)

### Planned Improvement for the School and District

In the past few years, Pontiac School District #429 has greatly increased co taught classes offered within our district. Originally at the Junior High, we began with four classes offered that were co-taught. After seeing what a success we were, we increased that number offered the following year to nine, and then the next year to sixteen classes co taught. We then brought in a trainer from outside the district to in-service our teachers on effective methods of co-teaching, and included the elementary teachers. Schedules were re-structured at the elementary buildings to include co-taught instruction in Core reading and math. At this time, all grade levels at Pontiac School District #429 have co taught reading, math, and in some cases science offered. We credit co-teaching and exposing special education students to the general education curriculum greatly with helping to increase scores on ISAT tests and for our Junior High meeting AYP in 2009 and 2010.

Our district is in continual RtI development. All district schools are utilizing universal assessments (Aimsweb, CBMS and Maze). The assessments are instrumental in implementation of interventions and instructional planning. The expansion of Math screeners and interventions are currently being implemented.

With the move to grade level centers in 2009-2010 each school expanded intervention materials and programs that focus on specific grade levels. The use of Aimsweb as data management software is utilized in district 429. District 429 acquired an independent license in 2009-2010 and has also created internal processes for management of data. Continued Aimsweb training for staff for the purpose of data management, progress monitoring, system management, and screening tools is ongoing.

State of the art technology will continue to enrich instruction in our classrooms. We are very fortunate as our Education Foundation and local community groups along with a substantial lease program through our school board have provided a multitude of technology. In 2008-2009 we were able to add over fifty technology carts and over fifty projection screens to our classrooms. Four Flip Digital cameras were also supplied to the district and are available in a checkout format. We have also been able to update all staff machines to laptops which also can function with any of our technology carts. Due to an economic situation with both county and state we will be unable to continue this type of funding. Additional funding will need to be procured in order to continue the excellent technology instruction in our classrooms. The plan is to contact local resources/businesses, in addition to our current processes, who may be able to step up and assist in lue of our state's shortage of monies. The goal is to provide all District 429 classrooms with access to technology carts, handheld digital video, and continued state of the art technologies.

Student behaviors in all our attendance centers will also be addressed by implementing a Positive Behavior Intervention and Systems (P.B.I.S.) program throughout the district. All faculty and staff, including support staff, will be trained on the fundamentals of this program. Each building will have a universal system to engage and reward positive student behaviors. All students will be taught the expected behaviors for identified areas. All staff will observe and reward students who demonstrate these expected behaviors. As students understand the universal building expectations and strive to receive rewards, office referrals should decrease. The reduction in office referrals will improve classroom attendance and provide a more conducive learning environment
