

PHYSICAL EXAMINATIONS UPDATED IMMUNIZATIONS BIRTH CERTIFICATES

All students entering early childhood education (ECE), pre-kindergarten (PreK), kindergarten, sixth grade and students entering school for the first time are required by Illinois state law to have both medical and updated immunization reports for registration.

Parents are encouraged to place the completed physical form in the registration envelope.

Students who do not provide proof of completed immunization records or the completed physical will be excluded from attending school on October 15th. When the October 15th deadline falls on a weekend, the following Monday will be used as the official deadline.

All students entering school for the first time are encouraged to place a copy of the student's **birth certificate** in the registration envelope. If you do not have a copy of the birth certificate, please contact the courthouse in the county where your child was born.

Thank you for your cooperation.
